

TZINR STUDIO

Phase 1 – Strategy Master Document

1. Vision

Build Tzinr Studio into a premium digital studio that helps businesses grow through strategy, UX/UI design, websites, front-end development, and creative content.

2. Mission

Design digital experiences that are beautiful, easy to use, and focused on business outcomes such as trust, leads, and growth.

3. Brand Positioning

Tzinr is not a freelancer portfolio. It is a premium one-person digital studio with agency-level quality and process.

4. Core Value Proposition

We help startups and businesses transform ideas into premium digital experiences that convert visitors into customers.

5. Target Audience

Primary: SaaS, AI startups, Healthcare, Service businesses, Founders.

Secondary: Real estate, Education, Finance, Professional services.

6. Services

- UX Strategy & Research
- UX/UI Design
- Website Design
- Product Design
- Front-end Development
- Creative Content & Product Videos

7. Brand Personality

Premium • Minimal • Modern • Confident • Human • Business-first • Innovative.

8. Business Goals

Generate qualified leads, convert visitors into clients, build authority, showcase expertise, and create a foundation for future digital products.

9. Website Goals

Explain who Tzinr is, what problems it solves, prove credibility, educate visitors, and encourage booking a discovery call.

10. Competitive Advantage

End-to-end execution from strategy to design to development, strong storytelling, premium presentation, and consistent client experience.

11. User Journey

Visitor → Understands Tzinr → Builds Trust → Explores Work → Learns Process → Books a Discovery Call.

12. Success Metrics

Increase qualified inquiries, discovery calls, portfolio views, average project value, and client testimonials.

Deliverables of Phase 1

At the end of Phase 1 we will have:

- Complete brand strategy
- Website strategy
- Audience definition
- Positioning
- Services definition
- Website goals
- Business goals
- User journey
- Content direction

This becomes the foundation for every design decision in later phases.
